Governance

Vision: Revamping student journey to support education outcomes...

WHAT ?

Revamping the student journey to increase:

Access to Higher Education

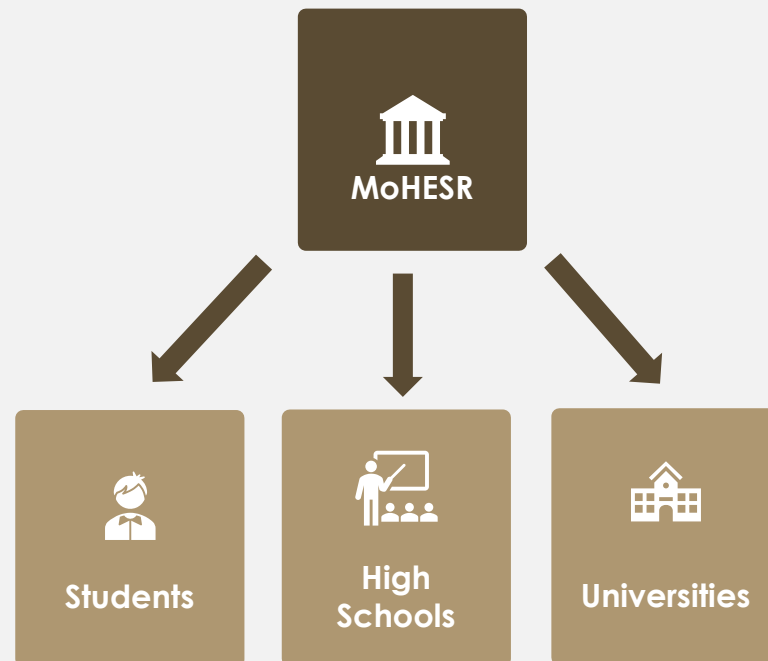

Operational Efficiency

User Satisfaction

HOW ?

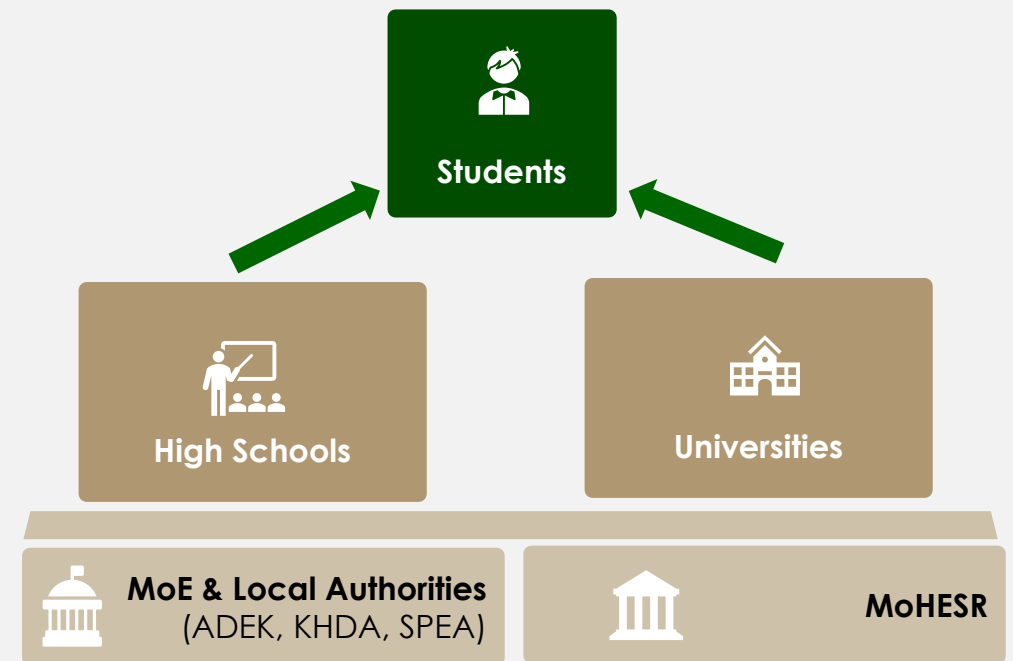

From...

Journey centered on **processes** with **MoHESR** being the main interface

To...

Journey centered on the **student** supported by **institutional coordination**

Vision: ... and maximize matching of students to higher education opportunities

Yearly demand for higher education

Yearly demand of ~ **27k**¹ as follows:

- **Female grade 12 graduates: ~ 13k**
- **Male G12 graduates from previous year who enrolled in national service: ~ 12k**
- **P2 & P3 students: ~ 2k**

Yearly supply of higher education

Yearly supply of ~ **46k+** as follows:

- **Federal universities:** capacity of **18k+** new intake / year²
- **Local & private universities:** **1.1k+** active programs³ with a yearly intake of ~ **26k+** new students⁴
- **Scholarships abroad: ~ 2k new intake / year** across both federal & local scholarships⁵

Enough capacity to guarantee access to higher education to all.

Focus of the **new journey** will be to **improve supply-demand matching**

Model: an integrated end-to-end student journey supported by a strong ecosystem with clear accountability

	 From...	 To...
 Students	<ul style="list-style-type: none"> • Start in Grade 12 • Fixed submission periods • Constrained to select one choice early 	<ul style="list-style-type: none"> • Early start in Grade 11 • Year-long submissions • No limitations on number of applications
 High Schools	<ul style="list-style-type: none"> • Limited involvement in supporting student registration & application 	<ul style="list-style-type: none"> • Accountable for student registration & support and are subject to incentives & penalties accordingly • Coordination with National Service for male students
 Universities	<ul style="list-style-type: none"> • Limited flexibility to design their own process • Limited ownership on publishing key information 	<ul style="list-style-type: none"> • Flexibility to set their own process and schedule • Accountable for sharing key information (capacity, deadlines, admission requirements)
 MOE & Local Authorities	<ul style="list-style-type: none"> • Limited involvement in the process 	<ul style="list-style-type: none"> • Oversee schools' role in student support • Enforce incentives and penalties for schools
 MoHESR	<ul style="list-style-type: none"> • Bottleneck coordinating with all stakeholders • Setting rigid deadlines and complex process 	<ul style="list-style-type: none"> • Enabler by providing an open platform • Focus on clearing stage & maximizing access

Student Journey:

A streamlined, consolidated student journey easing access to higher education in the UAE is proposed

Only applicable to students without an offer

Registration

Application & Enrollment

Clearing stage

Student Journey

- 1 Students register starting G11
- 2 Students receive counselling, explore & learn about universities

- 3 All students submit their choices
- 4 Students can apply all year long depending on each program's deadline
- 5 Universities review at their own pace and can issue offers all year round

- 6 Students without offers will be tracked & matched to available university spots & alternative programs

Guiding Principle

❖ Early access

❖ Open all year-round system

❖ No student left behind

Stakeholder accountability

Schools overseen by MoE & Local Authorities

Schools overseen by MoE & Local Authorities
Universities overseen by MoHESR

MoHESR in coordination with universities

model

Detailed student
journeys

Governance

Stage 1

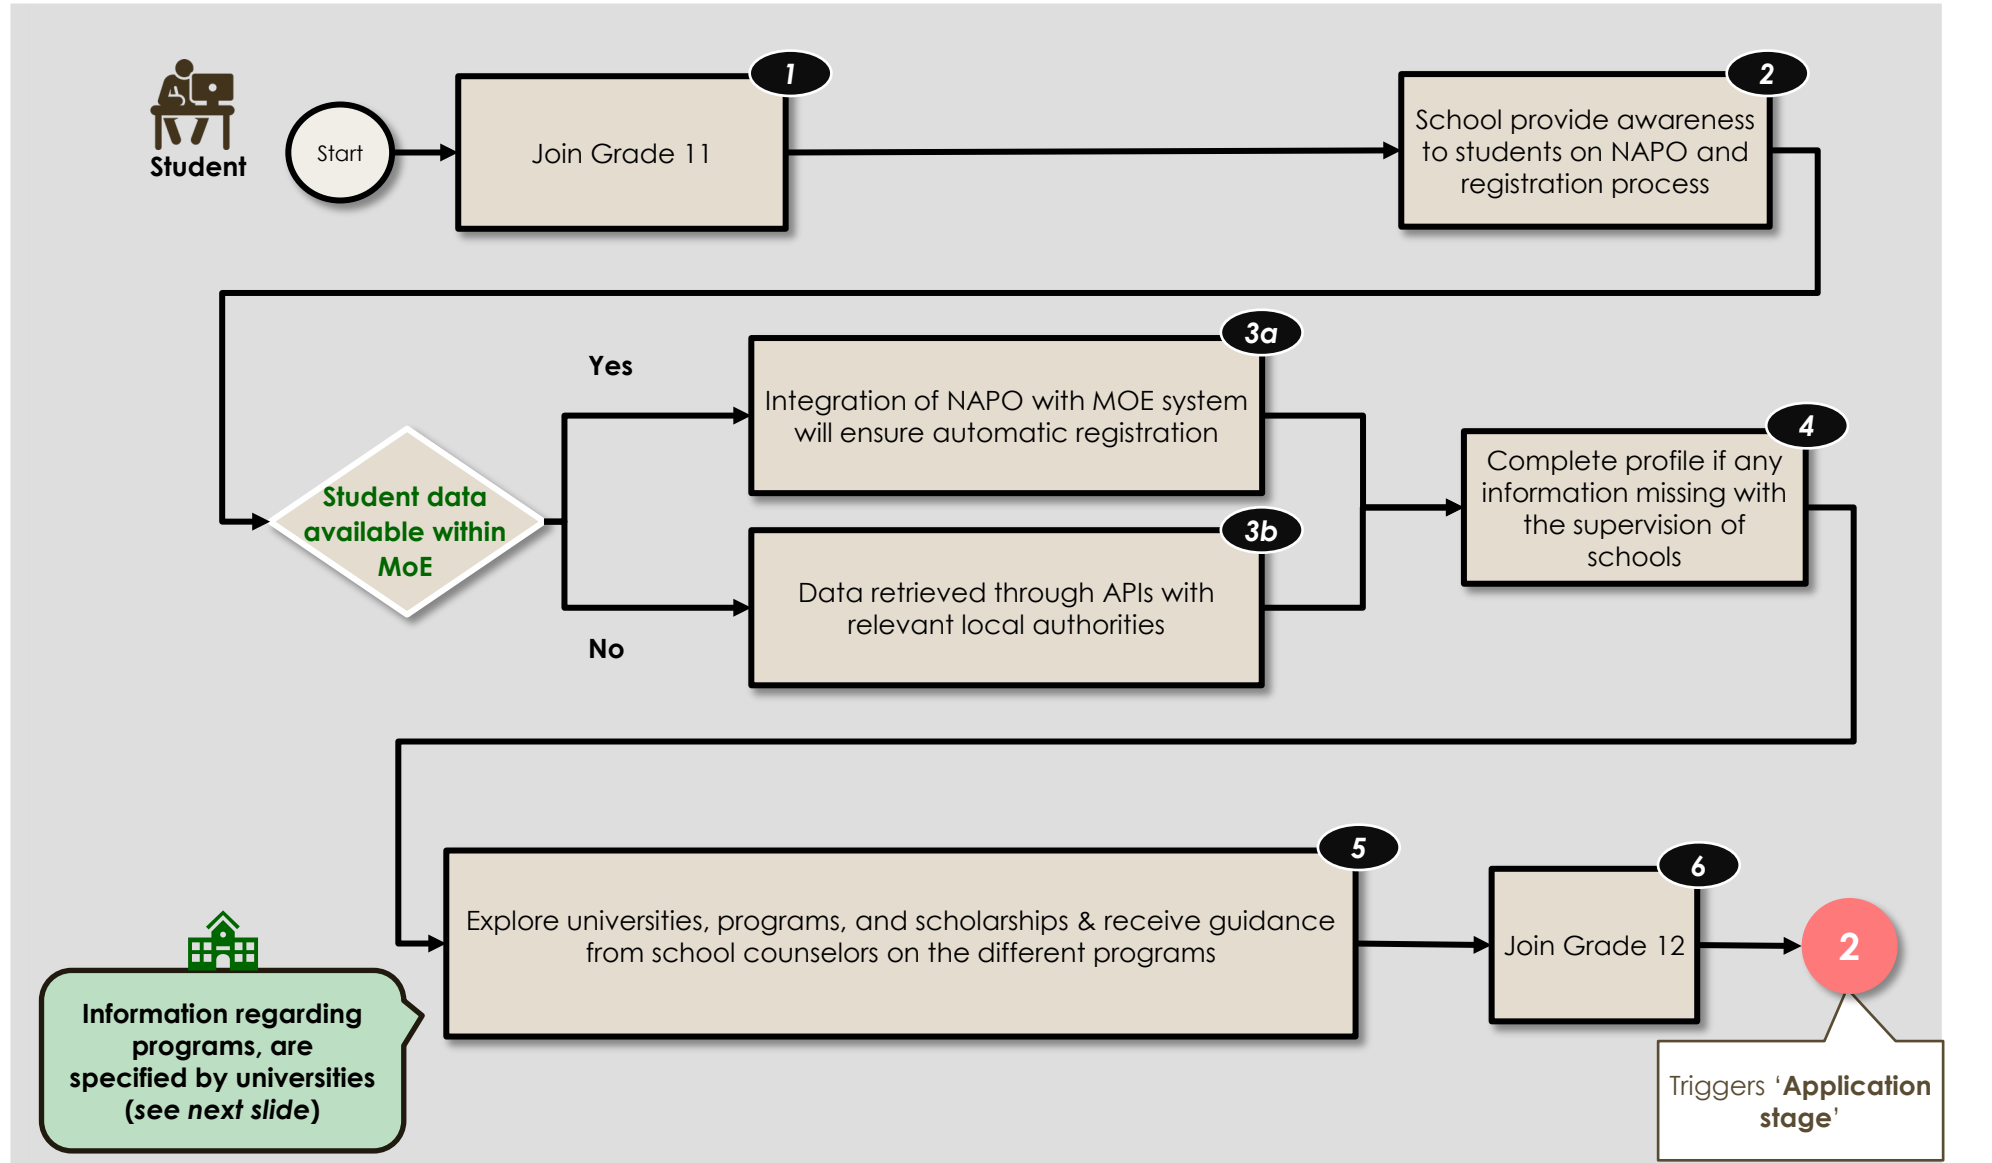

Registration

Key improvements

- ✓ **Early registration**
- ✓ Students get **familiarized** with programs, scholarships & process

Stakeholder Accountability

- **Schools** support student registration & provide counselling with **oversight from MoE and local authorities**

Stage 1

Registration

Key improvements

- ✓ **Ownership** on universities to **update program** information
- ✓ **Flexibility** for universities to set admission **process & schedule**

Stakeholder Accountability

- **Universities** update information on their programs with **oversight from MoHESR**

In parallel with student registrations, **universities update** program **information** including: **capacity, deadline, admission requirements & admission process**

Illustrative

The interface is titled "Programs open for application". It features two dropdown menus: "Program" set to "Mechanical Engineering" and "Location" set to "All". Below the filters are three cards:

- UNI 1**: Location: Dubai; Program: Bachelor in Mechanical Engineering; Capacity: 100 students; Deadline for applications: April 2025. Includes "View details" and "Apply" buttons.
- UNI 2**: Location: Abu Dhabi; Program: Bachelor in Mechanical Engineering; Capacity: 70 students; Deadline for applications: May 2025. Includes "View details" and "Apply" buttons.
- Scholarship**: Location: (blank); Program: Bachelor in Mechanical Engineering; Capacity: 50 students; Deadline for applications: March 2025. Includes "View details" and "Apply" buttons.

A callout box on the left states: "Universities **not on NAPO** can **also still publish their programs** and redirect students to their platform".

Stage 2

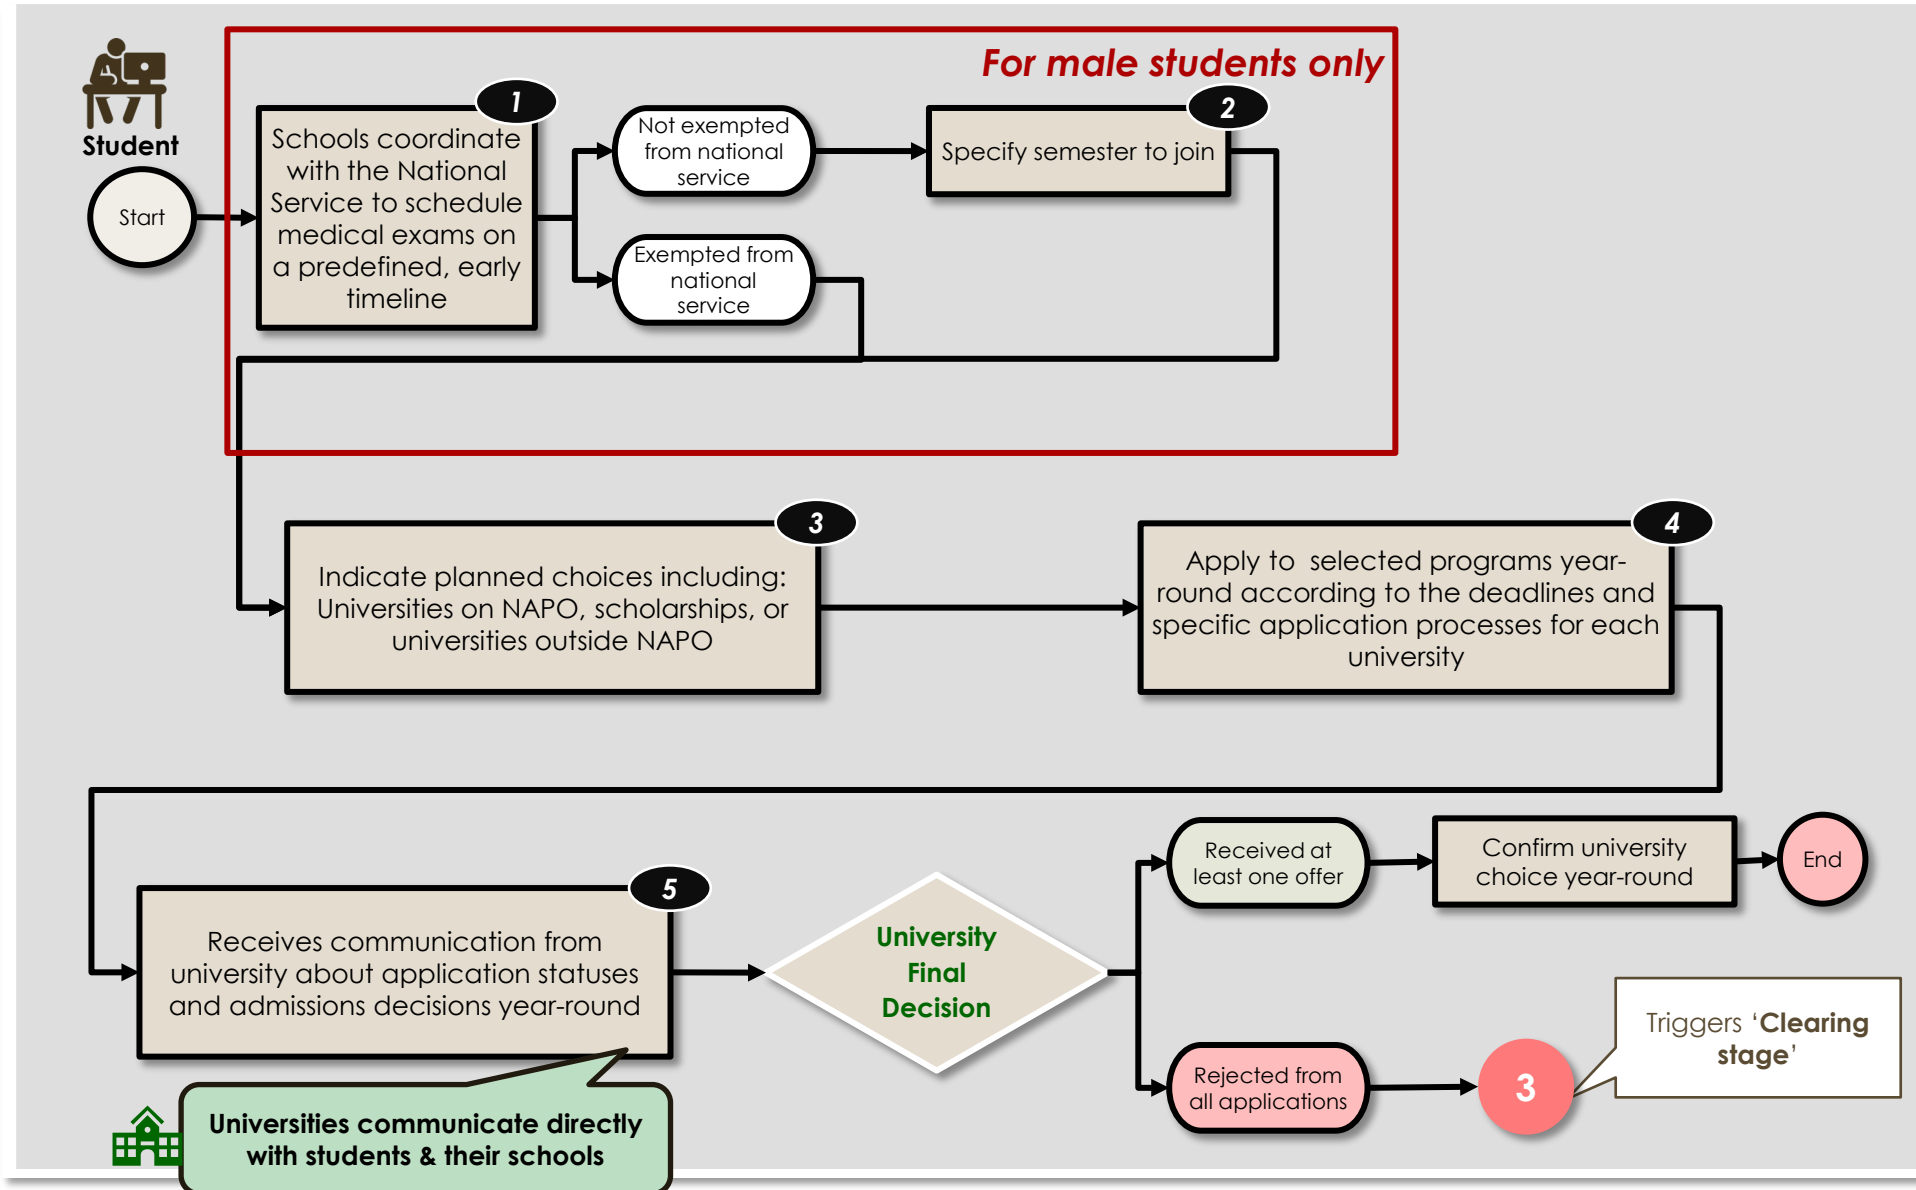

Key improvements

- ✓ **Open platform** with no forced timeline
- ✓ Students **are not forced** to select only one final choice

Stakeholder Accountability

- **Schools** support student applications with **oversight from MoE & local authorities**
- **Universities** reviewing applications & communicate with students with **oversight from MoHESR**

Application & Enrolment

Stage 3

Clearing stage (Only applicable to students without an offer)

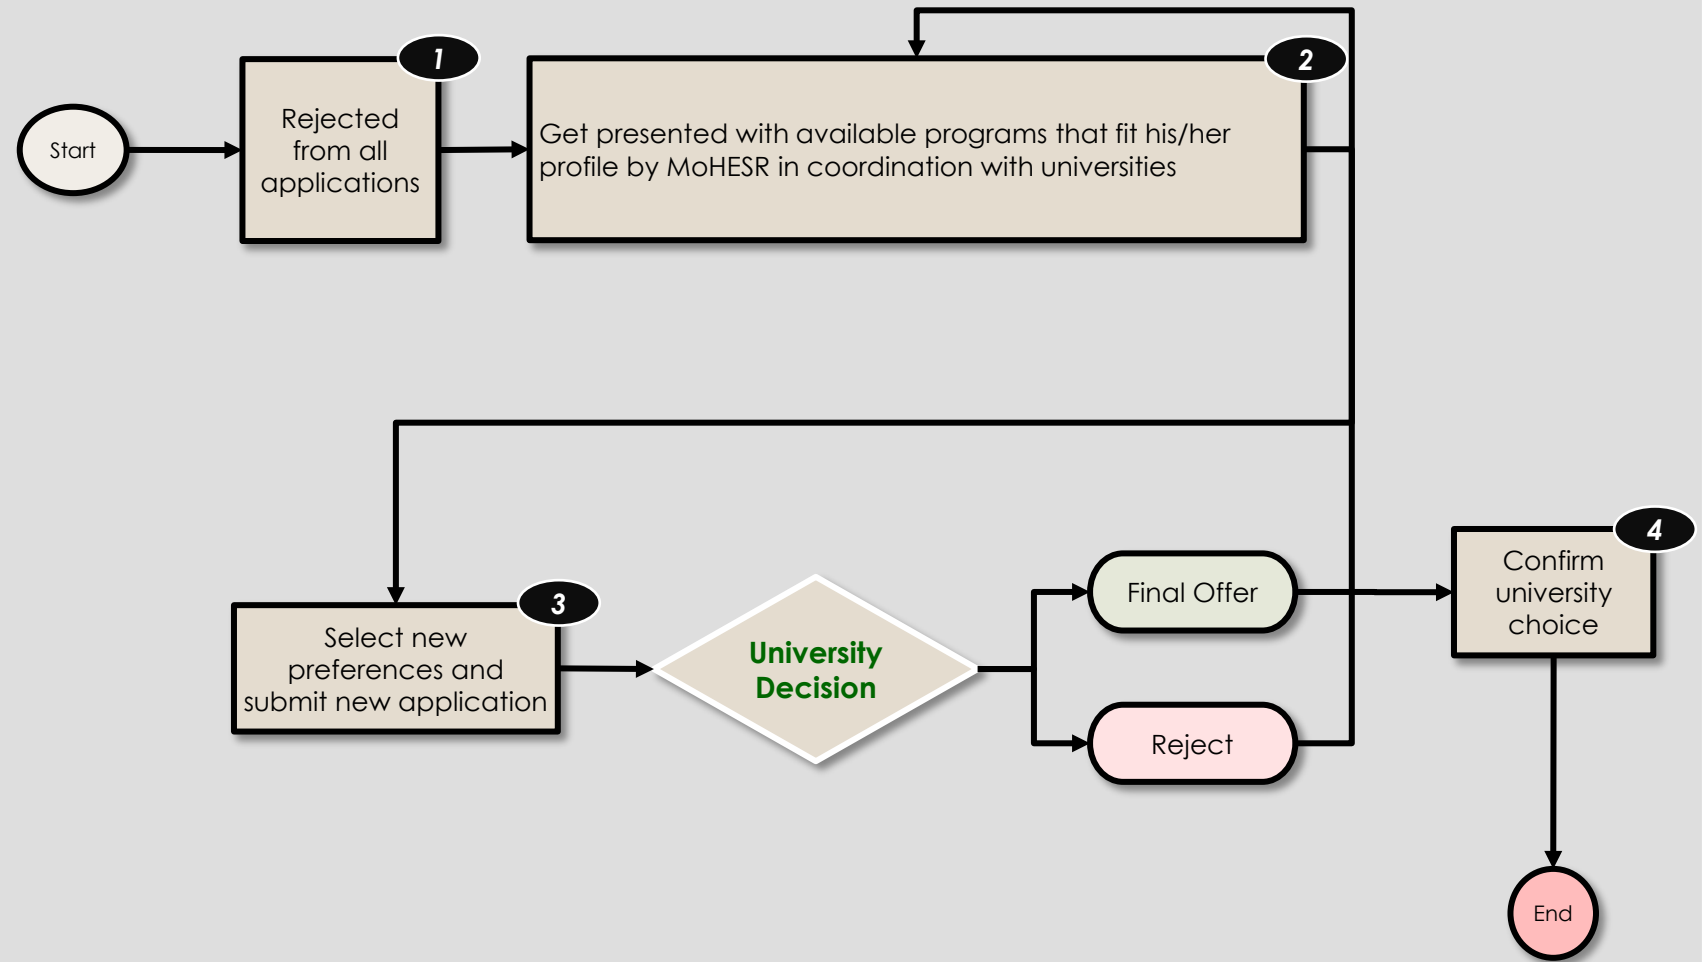

Key improvements

- ✓ **Data integration** to accurately identify pool of students without any offer
- ✓ Automatic **optimization of capacity & list of options**

Stakeholder Accountability

- **MoHESR** leads the clearing stage in coordination **with universities**

Students without an offer

Clearing stage: 2 types of interventions to ensure greater access to higher education

Overview

Before clearing stage

Minimize the number of students reaching the clearing stage

Inclusive admission policy	New Policy already published
Diversified educational pathways	Including & encouraging vocational degrees (diplomas, certificates) & associate degrees
Student options	Students can keep unlimited backup options

During clearing stage

Maximize matching with alternative options

Effective data integration	Accurately identify students who have no offers
Real-Time data on capacity	Monitor live updates on university capacity
Effective partnership with universities	Coordinate with universities, particularly federal ones, to admit students with bridging programs or in alternative pathways (diplomas etc.).

Governance

Governance:

Roles and responsibilities effectively distributed across ecosystem stakeholders

Dimension	Task Description	Schools	MoE & Local Authorities	Universities	MoHESR
Student Guidance & Support	1. Ensure students register on NAPO & completing their profile (G11)	Ownership	Oversight		Provides data analyses and dashboards to ease oversight
	2. Guide students on available programs, eligibility, and deadlines	Ownership	Oversight	Support	
	3. Provide preparatory workshops and information sessions to ensure application readiness	Ownership	Oversight	Support	
Information Transparency & Communication	4. Communicate program details, admission requirements admission process & program capacity seats & deadlines			Ownership	Oversight
Application & admission processes	5. Sets admission criteria & processes including deadlines			Ownership	Oversight
	6. Conduct timely application reviews			Ownership	Oversight
	7. Ensure students are submitting their complete applications on time & responding to applications on time (G12)	Ownership	Oversight	Support	
Clearing stage	8. Identify & analyses list of students who got rejected from all their applications	Support			Ownership
	9. Provide alternative offers & pathways to students without any offer	Support		Ownership	Ownership
